

# MERIDIAN AFRICA

**Five strategic discussions. Six months. The expertise you need to succeed in African private markets.**

**January - June 2026**

**Co-Hosted by:**

## **Africa Capital Digest**

The news and information service critical to Africa's private markets ecosystem

## **KRL International**

DC-based strategic advisory firm with unrivaled expertise across Africa

# Your 5-Part Roadmap to African Private Capital

---

## Why You Don't Want to Miss This

**The Old Playbook is Obsolete:** The old way of relying on concessional finance and DFI capital is breaking down. Africa is now looking to access trillions in untapped capital (both domestic and global)—pension funds, insurance assets, commercial banks, and sovereign wealth funds. This webinar series connects you directly with the investors, fund managers, and operators who are successfully navigating this new reality and profitably deploying private capital.

**The Opportunity is Massive:** While developed markets face stagnation, Africa's growth is accelerating. Learn about which sectors are delivering returns now, how successful investors are tapping into the continent's resources, and where the next wave of exits will come from.

**The Risk-Return Equation Has Changed:** Investors who understand how to hedge currency volatility, structure proper governance, navigate regulatory environments, and build local partnerships are generating outsized returns. Hear real exit case studies, proven risk-mitigation tactics from investors who've deployed billions, and due-diligence frameworks that actually work in African markets.

# Series Objectives & Outcomes

---

Decode Africa's private capital landscape

Network with capital deployers actively executing across the continent

Generate actionable deal ideas tailored to your investment mandate

Understand the investment frameworks and tools proven to succeed on the continent
